

Sudvet CORP

AQ BLISS®

AQ BLISS® is a natural product formulated with essential oils for fish management at all life stages. It provides strong support for animal welfare, contributing to efficient and sustainable animal production.

This product is offered exclusively and solely through the distribution network of Polarfeed AS, ensuring a specialized and dedicated approach to its availability and delivery to the market.

AQ BLISS®

Feed additive. A product developed by Sudvet Corp to support and improve the welfare of fish. It prevents fish stress during handling, optimizing the quality of the process. The animals exhibit good behavior throughout the process. The product helps maintain the quality of the mucus, reducing fish exposure to pathogens. Fish experience decreased anxiety, fear, and hyperactivity during application, resulting in a relaxing effect. It is safe for both animals and humans to use.

BENEFITS

- **AQ BLISS®** takes care of animal welfare.
- **AQ BLISS®** improves conditions during fish management.
- **AQ BLISS®** is suitable for use in all stages in both freshwater (FW) and saltwater (SW).
- **AQ BLISS®** is biodegradable and does not bioaccumulate.
- **AQ BLISS®** is safe and natural, leaving no residues. It is less hazardous to human health.

DOSE

The recommended dosage for 1 ton of feed is 10,000 - 20,000 ppm for use in both saltwater and freshwater fish.

PRESENTATION

AQ-BIOCARE PLUS®, is marketed in 20 kg format.

COMPOSITION

AQ BLISS® is a blend of natural essential oils formulated with oils from Australia. It is safe to use in all animals and is eco-friendly. This product has no negative impact or risk on the environment.

DISTRIBUTION

The distribution is exclusively managed by **Polarfeed**.

Polarfeed has a proven track record of excellence in delivering quality solutions professionally and in a timely manner.

Calculate the amount of AQ BLISS® needed, for example:

Doses: 10,000 ppm - 10 kg/ton.

Quantity of feed: 1 kg.

Volume of **AQ BLISS®** to apply for the concentration
 $10 \text{ gr} \times 1 \text{ kg feed} = 10 \text{ grs.}$

Mix well and maintain adequate aeration. Before using this product, read and follow instructions carefully, warnings and information contained on the product label.
