BIO ROSSE CARE®

BIO ROSSE CARE® is a natural paint additive formulated with essential oils, developed to keep nets free of residues, contributing to efficient and sustainable animal production.

This product is offered exclusively and solely through the distribution network of STIM, ensuring a specialized and dedicated approach to its availability and delivery to the market.

BIO ROSSE CARE®

Paint additive, it is used to contribute to animal welfare. Formulated as a coadjutant, its use reduces exposure to diseases, improves the efficiency of health strategies, promoting good productive performance, and protecting animals and the environment.

It has high flexibility and is developed to keep salmon farming nets clean, being harmless to fish. Its use allows for a continuous flow of clean water through the net, providing the fish with an environment with proper oxygenation.
